## Business & Consumer Confidence

## Domestic travel continues to break records

Australians took a record 102.7m domestic overnight trips in the year ending September 2018, representing 7.0% growth year on year. All states except the NT saw record high levels of domestic visitation.

Subsequently domestic visitor expenditure surpassed \$70bn for the first time, growing by 10.3% and reaching \$70.3bn. WA and NT were the only states which did not reach record levels of domestic visitor spending. Visitor expenditure in both QLD and NSW grew above the national average reaching \$17.6bn (+12.5%) and \$20.4bn (+13.0%) respectively.

## Travel for all reasons growing strong

The growth in domestic visitors was spread across all traveller segments.

Business trips increased by 7.7% to a record 22.6m visitors while expenditure continued its double digit growth (+14.9%) to reach a record \$12.8bn. This growth reflects the strengthening Australian economy, with both mining and non-mining investment on the rise and the Australian dollar has remained relatively steady against the USD over the past three years (Source: ABS, Haver Analytics).

Holiday visitation grew 8.6% to a record 41.7m visitors, who spent a record \$29.6bn, up 8.4% year on year.

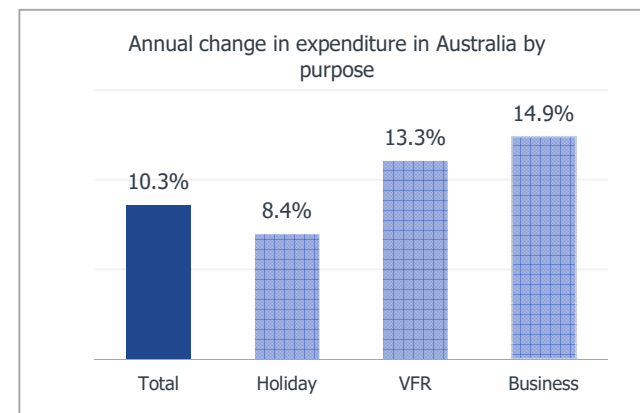

Travel to visit friend and relatives (VFR) grew 6.8% year on year to a record 34.7m visitors. These visitors spent 8.1% more year on year per night on their trip, with overnight expenditure up 13.3% to a record \$11.2bn.

## Intrastate vs. interstate

Australians took more trips, both interstate and intrastate, for all purposes of travel in the year ending September 2018. Interstate trips grew at a faster rate than intrastate trips (+8.0% vs. +6.3%), driven by strong growth in interstate business travel (up 16.3%).

## Records continue for Queensland

Queensland set its twelfth straight year-ending-quarter expenditure record, with domestic overnight expenditure reaching a record \$17.6bn, up 12.5% year on year. This places the state's growth above the national average of 10.3%.

This record spend came from a record 22.8m visitors to the State, up by 3.1% in the year ending September 2018. These visitors stayed in the state for a record 92.1m nights, that's 7.1% more nights than the same period a year ago.

## Holiday and business travel drive growth

Growth in holiday visitors drove Queensland's record number of total visitors, while expenditure growth was seen across all market segments.

Holiday visitation had a strong comeback from Cyclone Debbie, increasing by 8.4% to a record 9.1m visitors, with expenditure growing by 13.9% to a record \$7.9bn. This growth was mainly driven by Queenslanders holidaying in their home state, which grew 9.7% to a record 6.3m trips.

Business expenditure grew by 12.4% to a record \$2.9 bn despite the number of business visitors decreasing by 1.5% to 5.0m. The growth in expenditure reflects business travellers increasing their average length of stay by 0.7 nights to 3.9 nights per trip over the year ending September 2018, thanks to the Commonwealth Games and relief work after Cyclone Debbie.

VFR expenditure also grew (by 15.5%) to a record of \$2.7bn despite the number of visitors being stable at 7.6m (+0.5%), as these visitors spent more per night (up 14.1%).

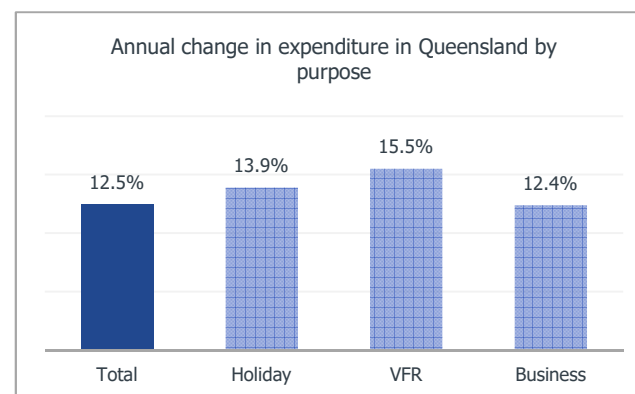

## Regional highs

Eight of Queensland's tourism regions reached record levels of visitor expenditure in the year ending September 2018: Brisbane (\$4.4bn), Gold Coast (\$3.3bn), Sunshine Coast (\$2.4bn), Southern Great Barrier Reef (\$1.2bn), Townsville (\$894.1m), Outback (\$656.0m), Mackay (\$468.0m) and Fraser Coast (\$430.1m).

These record levels of spend were accompanied by record high levels of visitation in five regions: Sunshine Coast (3.5m), Southern Great Barrier Reef (2.1m), Townsville (1.3m), Whitsundays (629,000) and Mackay (924,000).

## Domestic overnight visitor expenditure in Queensland

\* STR Global surveys Queensland accommodation establishments with 10 or more rooms. STR Global's North Queensland region includes Cairns, Port Douglas and Palm Cove.

## Brisbane

The Brisbane region continued to see strong growth in domestic overnight visitor expenditure, reaching a record \$4.4bn up by 5.4% year on year. Since domestic visitation was steady (-0.1%) at 7.2m, the increase in expenditure was driven by an increase in visitor spend per night (up 3.5%) and a slight increase in average length of stay (up 0.1 nights). Visitation was boosted by the holiday market which saw 11.7% growth to a record 2.1m visitors. Business travel declined by 1.7% year on year to 1.8m visitors. However, business travellers' average length of stay increased by 0.5 nights over the year, driving business nights up by 22.1% to a record 4.7m. Meanwhile, VFR travel declined slightly by 3.8% to 2.8m visitors.

## Gold Coast

Domestic overnight expenditure in the Gold Coast region grew 8.4% to a record \$3.3bn in the year ending September 2018. The region welcomed 3.6m visitors, slightly fewer (down 2.1%) than a year ago. Business travel to the region grew strongly as visitor numbers rose 17.2% to a record 497,000 and business nights were up 30.6% to 1.6m. This increase was driven by interstate business visitors and may be related to preparations for the Gold Coast 2018 Commonwealth Games, as well as travel during the games in April. However, the strong business growth was offset by declines in holiday and VFR travel, down by 2.8% and 11.3% respectively. Strong commercial accommodation performance may have helped the Gold Coast reach record levels of expenditure, with demand outstripping supply and average daily rates up 5.8% in the year ending September 2018 (Source: STR Global).

## Tropical North Queensland (TNQ)

TNQ welcomed 2.0m domestic overnight visitors in the year ending September 2018, representing growth of 14.9%. These visitors spent \$2.3bn in the region (up 20.3%). The region's strong expenditure performance was the result of visitation growth combined with an 8.2% increase in spend per night. Holidaymaker and VFR travel were the key driver of visitation growth, up 15.7% to 1.1m and 23.2% to a record 471,000 respectively. Business travel to the region also grew, up 6.9%.

## Sunshine Coast

Domestic overnight expenditure in the Sunshine Coast region grew by 18.4% to a record \$2.4bn in the year ending September 2018. Overall visitor numbers grew by 1.8% year on year to a record 3.5m. The region saw 6.6% growth in holiday travel, welcoming 1.9m visitors and business travel increased by 5.5% to a record 276,000 visitors. However, VFR travel declined year on year (-2.3%). Overall, the intrastate market grew 4.3% year on year to a record 2.7m visitors, driven by growth in holiday travel (up 10.2%). The intrastate market accounts for 77% of domestic overnight visitors to the Sunshine Coast. The interstate market declined 5.5% year on year to 818,000 visitors. The region's record overnight visitor expenditure was driven by 19.0% growth in visitor spend per night. The increase in spend might have been driven by an increase in accommodation spending in the region. Average Daily Rate (ADR) for commercial accommodation was up by 4.1% in the year ending September 2018 (Source: STR Global).

## Whitsundays

The Whitsundays region was the most impacted when Tropical Cyclone Debbie hit in late March 2017. A year and a half after the event, we see that visitation has surpassed levels seen prior to the cyclone and reached record levels. Domestic overnight visitation grew 10.4% to a record 629,000 visitors, while expenditure in the region grew 10.4% to \$651.0m in the three years ending September 2018. Holiday visitation grew 14.3% to 402,000, and holiday nights were up 4.1%. While visitation was up, visitors shortened their stay on average to 4.2 nights (down 5.1%). Intrastate visitation grew by 20.5% to 405,000 and interstate visitation increased by 5.3% to 225,000 visitors.

Whitsundays	\$651.0m	10.4%	3.7%	\$1,035

## Fraser Coast

The Fraser Coast region welcomed 740,000 domestic overnight visitors in the year ending September 2018. Over the three years ending September 2018, visitor numbers grew 5.8% with expenditure growing 15.3% over the same period to a record \$430.1m. The holiday market was the primary driver of growth, up by 7.8% to a record 418,000 over the three-year period. The VFR market was steady at 234,000 (+0.4%). Intrastate visitation accounted for over three quarters (79%) of visitation to the region and grew by 6.8% while the interstate market grew by 2.6%.

## Townsville

Domestic overnight visitation to the Townsville region grew strongly in the year ending September 2018 and appears to have had a particularly strong comeback after Cyclone Debbie cut off sections of the Bruce Highway between Mackay and Townsville in March 2017. Visitation grew 27.3% to a record 1.3m, expenditure grew 20.9% to a record \$894.1m and nights grew 30.1% to 4.5m. All purposes of travel saw growth, with VFR trips recording the strongest growth, up 58.7% to a record 405,000. Holiday and Business visitation both grew, by 25.7% and by 18.4% respectively. The intrastate market accounts for 80% of domestic visitors to the region and grew 26.5% to a record 1.1m visitors. The interstate market grew 30.2% to 268,000 visitors.

## Southern Great Barrier Reef (SGBR)

The SGBR region continued to see record levels of visitation and expenditure, welcoming a record 2.1m visitors, up by 10.2% in the year ending September 2018. These visitors spent a record \$1.2bn in the region, up 17.3% year on year. The biggest source of growth was the business market, which grew by 30.1% to a record 630,000 visitors. Holiday travel also grew, up 14.0% to a record 766,000 visitors, while VFR travel declined slightly by -1.4% to 551,000 visitors. Visitation growth was seen in both the intrastate and interstate markets. Intrastate visitation grew 8.1% to a record 1.8m and interstate visitation grew by 25.0% to a record 309,000. As well as reflecting increased visitation, the increase in expenditure reflects an increase in average length of stay, up by 0.3 nights to 3.9 nights.

## Southern Queensland Country (SQC)

The SQC region welcomed 2.0m domestic overnight visitors in the year ending September 2018, which was stable year on year (-0.9%). These visitors spent \$782.9m in the region, up 4.8% year on year. Visitation was stable due to declining holiday and business visitation, with holiday visitation down 2.0% to 591,000, and business visitors down 11.8% to 441,000. VFR visitation, on the other hand, grew 2.9% to 789,000. Intrastate visitation increased slightly to 1.6m (+2.0%) while interstate visitation was down 11.9% to 358,000 visitors.

## Mackay

In the three years ending September 2018, domestic visitation to Mackay increased 2.4% to a record 924,000 visitors. These visitors stayed in the region for 4.2m nights, up by 12.4%. The strong growth in nights saw expenditure increase 10.1% to a record \$468.0m. Business travel grew 2.7% to 465,000, with business travel accounting for half (50%) of domestic visitors to the region. Meanwhile, VFR and holiday visitation grew 1.5% and 1.8% respectively. Visitation growth in the three years ending September 2018 was driven by the intrastate market, up by 2.8%. The interstate market was steady (-0.2%).

## Outback

Domestic overnight visitation to the Outback region grew by 2.0% to 864,000 over the three years ending September 2018. Average length of stay in the region grew by 9.5% boosting total domestic nights in the region, up 11.6% to a record 4.8m. This growth in length of stay helped to deliver expenditure growth of 8.7% to a record \$656.0m over the same period. Holiday visitation to the region grew 9.7% to a record 326,000 over the three years ending September 2018. These holiday visitors spent a record 1.7m nights in the region (up 14.6%). Business travel also saw growth, up 2.2% to 356,000. The intrastate market remained the largest source market, accounting for 75% of domestic trips to the region, generating 650,000 visitors, steady (+0.6%) in the three years ending September 2018. Interstate visitors increased by 7.4% over the same period to reach a record 214,000.

<b>Total business</b>	<b>22,572,000</b>	<b>7.7%</b>	<b>3.4</b>	<b>0.1</b>
Queensland	5,037,000	-1.5%	3.9	0.7
New South Wales	7,159,000	15.3%	2.7	0.0
Victoria	4,643,000	7.8%	2.5	0.2
Other States	6,182,000	6.3%	4.2	-0.1

Annual change in visitor expenditure by state

Data Source:

The information included in this report refers to overnight visitor data extracted from the National Visitor Survey (NVS), managed by Tourism Research Australia (TRA) a federally-funded body based in Canberra. Approximately 120,000 Australian residents aged 15+ are surveyed annually using a telephone interview. The statistics included in this report depict rolling annual data and are updated each quarter. The use of rolling annual data removes seasonality from the data allowing the measurement of real growth and decline.

For this publication, data has been adjusted to conform to Tourism and Events Queensland's (TEQ) tourism region definitions.

In 2014, TRA moved to a new methodology for the NVS that included mobile phone interviewing as part of a dual frame overlap survey. This initiative was part of TRA's continuous improvement program. The inclusion of mobile phone users ultimately delivers greater domestic tourism data accuracy as it better reflects the Australian resident population and phone ownership.

Please visit [tra.gov.au](http://tra.gov.au) for more information on the methodology, back-casting process and impact on results.

Disclaimer:

By using this information, you acknowledge that this information is provided by TEQ to you without any responsibility on behalf of TEQ. You agree to release and indemnify TEQ for any loss or damage that you may suffer as a result of your reliance on this information. TEQ does not represent or warrant that this information is correct, complete or suitable for the purpose for which you wish to use it. The information is provided to you on the basis that the you will use your own skill and judgement and make your own enquiries to independently evaluate, assess and verify the information's correctness, completeness and usefulness to you before you rely on the information.

State visitation growth comparison, year ending September

Notes:

1. Annual change refers to the percentage change between the year covered by this snapshot compared to the year prior.
2. Avg stay = Average length of stay.
3. Total includes visitors classified as 'Other' purpose. Total Australia includes visitors classified as 'Other/transit' i.e. not allocated to a state/territory.
4. VFR = Visiting friends or relatives.
5. Expenditure including airfares and long distance transport costs.
6. Expenditure excluding airfares and long distance transport costs.
7. SQC = Southern Queensland Country. Region is inclusive of the Toowoomba, South Burnett, Southern Downs and Western Downs regions.
8. SGBR = Southern Great Barrier Reef. Region is inclusive of Capricorn, Gladstone and Bundaberg.
9. TNQ = Tropical North Queensland.
10. Trend change refers to the percentage change between the three years to this year ended, compared to the three years to the prior year ending.

n/p = Not publishable
